Citat:

Openmoko have announced a scheme to sell the forthcoming Neo Freerunner at a discount if bought in multiples of 10 (US\$369, instead of 399), to be shipped in one package. Group buying will thus save money on the purchase, and on the shipping. This page is to to organise group purchases by region.

Steve from Openmoko announced "Every 10 pack, will come with a box of stuff. 10 pouches and 10 head sets." So join us within a local group !
